Elevating Montana Homes to New Heights

Big Sky Elevator

We often consider an elevator utilitarian equipment that brings us up to a doctor's appointment or office space. Yet, in the context of a home, an elevator is so much more. The Big Sky Elevator Service team sees a residential elevator as an opportunity to demonstrate architectural prowess. Their Missoula-based business is renowned for world-class service and upscale builds. As a result, their elevators are seen in numerous luxury homes throughout Montana.

Big Sky Elevator Service has deep roots in Montana, having designed, installed, and serviced both residential and commercial elevators across the state for over 26 years. Safety, reliability, outstanding service, and quality design are all at the core of our company. Homeowners can expect to receive an industry-leading product that their passengers can count on.

Big Sky Elevator Service provides a reliable mode of transportation from next-level luxury to solutions for mobility necessities. The company's projects are located across the state and include the resort communities of Whitefish, Kalispell, Bigfork, Missoula, Bitterroot Valley, Bozeman, Big Sky, the Yellowstone Club, and Moonlight Basin.

Our local presence in Montana allows us to build long-term relationships with architects, builders and homeowners. Exceeding expectations for mobility necessity, convenience, architectural vision and future elevator services make us one of the premier elevator companies in Montana.

Peter Wheaton, President, Big Sky Elevator
